(1) Based on approximately 5% print coverage. (2) Average standard page yield value declared in accordance with ISO/IEC 19752. Use and return empty only to Lexmark. (3) Actual Yield may vary based on factors such as number of pages per print job, device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. (4) Average standard page yield value declared in accordance with ISO/IEC 19752. (5) Photoconductor maximum yield estimate based on 3 average letter/A4-size pages per print job. Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. (6) Actual yield can be impacted by several factors, including number of pages per print job, device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. (7) 2 x 5,000 pages based on approximately 5% print coverage. (8) Use and return empty only to Lexmark. Based on approximately 5% print coverage. (9) Based on approximately 5% print coverage at comparable industry setting (toner darkness setting 5). (10) Use and return empty only to Lexmark. Based on approximately 5% print coverage at comparable industry setting (toner darkness setting 5). (11) Photoconductor maximum yield estimate based on 6 average letter/A4-size pages per print job. Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity.
